

WE ARE LOOKING FOR THE PERFECT MATCH.

LEAD FRONTEND DEVELOPER (FLUTTER)

Ready to make a positive impact with software development at scale?

You have the chance to join an award-winning impact startup with the mission to make circularity mainstream, affordable and fun! We're developing a fashion swapping app that basically works like Tinder – for clothes.

Following our rapid growth to 20.000 users, thousands of clothes that found a new home, being nominated as the most promising impact startup in AT, and a recent funding round we can't wait to take this journey to the next level.

Hence, we are now looking for a highly engaged, full-time Lead Frontend Developer (m/f/x; GER/ENG) – in our office in Innsbruck/Berlin or remotely – that can take over and build up the frontend development team on a long-term basis.

These are the areas where uptraded needs you:

- You further develop the uptraded app hands-on and bring in your own ideas
- You set quality and performance standards for the frontend team
- You enable rapid product testing and development
- You work closely with the leadership and product team
- You strategically introduce tools and methods to improve development speed and quality
- You set up and lead the frontend development team
- You monitor and handle bug tickets and find ways how to avoid bugs in the long-term

These are the things we think you need:

- Being able to develop flutter fast, well, and under time pressure
 - Min. 3+ years of work developing flutter apps, ideally in a startup
 - A good sense for overviewing different projects and your team
- Connection to our mission of making circularity mainstream and a passion for secondhand fashion
- An analytical, performance-oriented, and growth mindset
- Very good English or German skills

This is why we think this opportunity is amazing:

- You can be part of making the world a better place through a system change – from linear to circular
- You will have the responsibility and ownership of being the most important frontend developer on board
- It's a crazy ride, lots of adrenaline and joy await you
- You can get extra compensation through employee stock options
- Minimum salary for employment in Austria: 2.500 gross per month for 35h/week

Send us your CV and your earliest starting date to thomas@uptraded.com.

Thomas is looking forward to your application if you want to initiate and drive a system change in society and enable the masses to save the environment we live and love in.
